

# CLEAN ENERGY TECHNOLOGY INCENTIVES

## FOR LOW AND MODERATE INCOME HOUSEHOLDS

### Moves to Massachusetts, fulfills solar dream

"We moved to Massachusetts from Virginia about a year and a half ago. We had long been interested in solar energy but our home in Virginia was not suited to a solar installation. We were so excited to learn that our new home here in Massachusetts was very well suited for solar panels, and that with the state incentives, we could actually afford them. Now they are installed and generating renewable energy."

-M.C., Massachusetts homeowner

### Air Source Heat Pumps

Do you have an aging heating system? Exhausted by putting in window air conditioners each summer? Install a mini-split.

- Mini-split heat pumps provide highly efficient electrical heating & air conditioning.
- They use 40% to 70% less electricity than electric-resistance heating.
- MassCEC provides rebates up to \$1,300 per system or up to 35% of installation cost.

### Wood Stove Changeout

Do you have an old woodstove? If so, you may qualify to upgrade to a healthier, more efficient pellet or woodstove.

- New stoves burn more efficiently, cutting annual fuel costs by about 33%.
- New stoves reduce smoke pollution that may trigger asthma and increase the risk of heart and respiratory diseases.
- MassCEC provides rebates up to \$3,000 or up to 95% of the cost of installation.

### Solar Electric Loan

Generate electricity for your home by securing a low interest loan to install a solar system.

- 30% reduction of the project cost.
- Interest rate reduced by 1.5%.
- Work with a participating local MA bank or credit union to secure a loan for residential solar installations.

See [www.MassSolarLoan.com](http://www.MassSolarLoan.com).

### Solar Hot Water

Use solar energy to heat your home's hot water.

- Can reduce water heating costs and greenhouse gas emissions by up to 80%.
- MassCEC provides rebates for up to \$6,000 or up to 50% of the installed cost.

### Income-Based Rebate Adder Thresholds by Household Size

Household Size	80% of State Median Income	120% of State Median Income
1	\$45,840.00	\$68,760.00
2	\$59,944.00	\$89,916.00
3	\$74,049.33	\$111,074.00
4	\$88,153.33	\$132,230.00
5	\$102,257.33	\$153,386.00
6	\$116,362.67	\$174,544.00
7	\$119,006.67	\$178,510.00

### How low does my income have to be?

Income-based rebates are available for households with incomes below the State Median Income (SMI) thresholds presented in the table above.

*Looking for additional funds? These rebates can be combined with utility rebate programs, renewable energy tax credits and financing.*
