

What is Grow Education?

YOUR SCHOOL GARDEN!

We help plant and harvest the school garden, an "outdoor classroom" where your child can do hands-on learning.

YOUR COMMUNITY GARDEN!

Everyone is welcome at the Grow Education garden! You and your neighbors can come together to grow and harvest nutritious food.

How can you use the garden with your family?

EAT YOUR VEGGIES!

The food in the garden is for you and your family! Please follow the signs in the garden or contact your school office if you have questions.

JOIN US IN THE GARDEN FOR FAMILY TIME!

You and your family are invited to volunteer at our planting and harvesting events. We also need help throughout the summer to water and weed.

For more info, visit your school office.
