JUST RIGHT TO GROW

Think of the fruits and vegetables that you find in a market. Which of these are local? Which must be grown and shipped in from farther away?

Choose 3 fruits or vegetables that can be grown locally. Draw a picture of each below.

Like a plant, we each have certain needs. When these needs are met, we thrive. In the space below, use words, symbols, or a mix to represent 4 things you need to thrive.

Climate change has caused many places to experience drought, or lack of rainfall. How might this affect plants in those places and their ability to thrive?
