

Dear *{{First Name}}*

As we welcome the first days of our much cherished summer season, we're thrilled to announce the publication of the [MI's FY'22 Annual Report!](#) Your steadfast support has allowed us to plant seeds across the organization that have germinated, taken root, and blossomed.

Our small, dynamic team has done amazing work by creating and operating continuous learning and communications loops with our constituents, partners, and diverse stakeholders. We've made incredible progress this past year! If you have not received a printed copy and would like to receive one, please [let me know](#) or check it out [here](#).

As you read through this year's annual report, we hope you will both see the high-standards you have come to expect of us shine through, and be inspired anew by the important work that we are doing together. **Momentum is indeed growing**, making it an exciting time to be part of our Marion Institute community!

With gratitude,

Liz Wiley Executive Director

Introducing a new podcast from the founders of The Marion Institute: "The Great Relearning – Three Brothers Quest for Meaning in a Living Cosmos"

To understand who we are today, we need to know who we were in the past. We are at an inflection point in our human trajectory. Not the first, and most certainly not the last. The future is unknowable. But we owe it to ourselves to do all we can to make it desirable.

This is the quest of the three Baldwin brothers, **Michael, Ian, and Philip** - a journey they've been on for more than three decades. Described as "incurably curious", the brothers are setting out to tackle some of the greatest questions that have faced our species over millennia. Topics such as lack of kindness and compassion; male domination leading toward manipulation, war, greed, and hypercontrol; left brain thinking over right; the tsunami of narcissism that diminishes empathy; and the crisis of disappearing spirituality. Profound and meaty subjects for sure, they will probe these musings in **once a month interviews** with some of the most interesting thinkers and practitioners of our time. Each podcast is brilliantly led by [Dr. Rob Williams](#) – environmental historian, communications professor, and media consultant. For questions, ideas, and/or feedback, reach out here – contact@doctorrobwilliams.com.

Listen [here](#) for an introduction to the brothers and the reasons behind their quest. Our first formal podcast interview is with [Jeremy Lent](#), author of "**The Web of Meaning**" and "**The Patterning Instinct**" and can be accessed [here](#). The Great Relearning podcast will live on our youtube channel, [MarionInstituteTV](#), and be available on all major podcast platforms. We hope you'll join them in their quest to get at these deep questions and benefit from their immense knowledge, understanding, and the answers they uncover.

Announcing the return of The Marion Institute's Connector Series!

Global climate change is not a future problem. It is here and we are experiencing its affects now. How do we address and prepare for climate impacts on the Southcoast?

On **Tues. July 18th from 5:30-7:30pm**, join us as we welcome **Jennifer Francis, Ph.D.**, Senior Scientist at the Woodwell Climate Research Center, for our talk, "**Climate Change & Our Communities.**"

On **Tues. August 15th from 5:30-7:30pm**, we will welcome **Dave Wiley, Ph.D.**, Marine Ecologist at Stellwagen Bank National Marine Sanctuary for our talk, "**Climate Change & Our Oceans.**"

If you would like to attend please register at bit.ly/misummerseries
